

K-Love has an enormous impact in our area. I listen to K-Love each day, and I have had others turn their channels to K-love also. K-Love is heard on 91.1 in our area, and it would be a crime for this station to be lost. It impacts our communities in a positive and enlightened way. Without it, we would lose a great partner in many areas of our lives. There are already enough stations that pump out negative messages, and K-Love is a light within all of radio darkness. Our communities do not want K-Love switched over to LPFM. This would be a disgrace and would harm the community in many ways. It would impact the destitute, the commuter, the office worker, the business owners that broadcast K-Love at their business', the trucker, the housewife, and most of all, the children that love to listen to the positive and encouraging music that K-Love plays daily. Please leave K-Love on the current translator service.
